## ABOUT

For more than seventeen years, I have helped people understand, adopt, and succeed with complex technology. My audiences have ranged from first-time builders and business users to developers, executives, investors, and industry analysts.

I combine technical communications, education, live demonstrations, documentation, and product evangelism to create consistent messaging and enable people to confidently adopt new technology.

The compliment I value most: **“You finally made this make sense.”**

## WHAT I'M KNOWN FOR

### Technical Communications

Create documentation, presentations, educational materials, product messaging, and customer communications for audiences with widely different technical backgrounds.

### Clear Communication

Adapt complex ideas for non-technical builders, developers, enterprise teams, executives, investors, and analysts.

### Cross-Functional Alignment

Partner across Engineering, Product, Marketing, Sales, and Customer Success to align messaging, educational resources, and customer communications.

### Partner Enablement

Build onboarding resources, webinars, implementation guidance, and technical content that help customers and partners adopt new capabilities.

## PROFESSIONAL EXPERIENCE

### Caspio, Inc. 2009 - Present

Enterprise low-code application platform

#### Developer Advocate | Technical Evangelist

Apr 2014 - Present

Serve as a public-facing technical communications leader, translating complex platform capabilities into documentation, educational content, presentations, webinars, and customer enablement resources for global audiences.

- Created 300+ technical education assets spanning videos, webinars, tutorials, product launches, implementation guidance, customer stories, and application development.
- Educated 91,000+ course enrollees with a 4.5-star average rating by making technical concepts approachable across skill levels.
- Helped grow Caspio's YouTube channel organically from roughly 4,000 to 15,000+ subscribers and more than 2 million views.
- Delivered hundreds of live webinars, workshops, onboarding sessions, customer trainings, technical presentations, and enterprise demonstrations worldwide.
- Authored customer-facing documentation including implementation guides, onboarding resources, technical tutorials, FAQs, product messaging, launch communications, and educational materials.
- Partnered with Engineering, Product, Marketing, Sales, and Customer Success to align technical messaging, documentation, presentations, and customer communications across product launches and educational initiatives.
- Leveraged AI-assisted workflows to accelerate technical writing, educational content creation, product demonstrations, and customer enablement.
- Delivered technical presentations and executive briefings to enterprise customers, venture capital firms, Gartner, Forrester, and global business stakeholders.
- Earned repeated customer recognition for explaining complex technology clearly, practically, and patiently.

#### Technical Sales Manager

May 2009 - Apr 2014

- Advanced from Sales Consultant to Sales Manager by combining platform expertise with consultative solution selling.
- Led four technical sales professionals and contributed to approximately 200% revenue growth during tenure.
- Delivered tailored demonstrations for the NBA, Bayer, Barnes & Noble, and numerous Fortune 500 organizations.
- Guided discovery, solution design, evaluation, onboarding, stakeholder communication, and sales-team development.

Selected audiences and organizations: first-time builders, developers, enterprise teams, executive leadership, NBA, Bayer, Barnes & Noble, Fortune 500 organizations, venture capital firms, Gartner, and Forrester.

### Island Hospitality Management

Sep 2005 - Nov 2008

Hyatt Summerfield Suites

#### Director of Sales & Marketing

Led business development, corporate partnerships, revenue forecasting, account growth, and local marketing for an extended-stay hotel property. Built the communication, relationship-management, and consultative-sales foundation later applied to enterprise software.

## CORE EXPERTISE

Technical Communications • Partner Enablement • Stakeholder Management • Cross-Functional Alignment • Technical Education • Public Speaking • Technical Writing • Product Messaging • Developer Advocacy • Artificial Intelligence • Enterprise Software • Solution Consulting

## FEATURED DEMONSTRATION PROJECTS

### AI-Powered CRM

Demonstrated AI-assisted lead qualification, intelligent scoring, workflow automation, and CRM productivity enhancements.

### Healthcare Solutions

Built demonstration applications for patient portals, referral management, appointment scheduling, and HIPAA-oriented workflows.

### AI Agents & MCP

Showcased conversational access to business data, AI agent workflows, and Model Context Protocol integrations.

### TECHNICAL COMMUNICATIONS PORTFOLIO

- 300+ technical and product videos
- 2M+ YouTube views
- 91,000+ total course enrollments
- Hundreds of technical webinars and workshops
- Enterprise demonstrations and executive briefings
- Documentation, FAQs, implementation guides, and how-to articles
- Product launches, customer stories, and short-form video
- Caspio Live host and presenter

### TECHNICAL TOOLKIT

- Caspio, low-code, and no-code platforms
- HTML, CSS, basic SQL, REST APIs
- Generative AI, AI agents, MCP
- Final Cut Pro, Adobe Premiere Pro, CapCut, Camtasia
- YouTube, Udemy, SEO, content strategy
- AI-assisted development workflows

### Spreadsheet Modernization

Demonstrated how spreadsheet workflows evolve into secure, relational web applications with dashboards, reporting, and automation.

### AI Knowledge Assistant

Demonstrated enterprise knowledge assistants using document search, prompt engineering, and practical AI integration.

### Business Applications

Built demos spanning CRM, inventory, HR, project management, expense tracking, asset management, education, and self-service portals.

### SELECTED RECOGNITION

“These are the best technical training videos I have ever watched.”

Steve Tyson, President & Founder

“Ned has an extraordinary ability to explain technical parlance in language that is both clear and engaging.”

Duffie Osental, Content Marketing Strategist

“A rare combination of hard and soft skills.”

Valeriia Rusinko, Software QA Automation Team Lead

### INDEPENDENT WORK

#### Galactic Strike 2D

Designed and released an arcade-style iOS game on the Apple App Store.

#### SaaS Product Development

Designing and building a modern SaaS platform using AI-assisted development, cloud technologies, and contemporary web frameworks.

### EDUCATION

#### Bachelor of Science in Business Administration

San José State University
